

Facial Composite Training Course

26th February – 2nd March 2018

VisionMetric Ltd

About the course: This 1 week course covers all aspects relating to the effective production and use of EFIT6 facial composites and will take place within purpose-built, training facilities at Canterbury Innovation Centre, Kent University –

- ❖ Comprehensive training in the EFIT6 software package
- ❖ Effective use of associated paint packages
- ❖ The psychology of face perception and eyewitness memory
- ❖ The understanding of facial proportions and simple drawing and shading techniques
- ❖ Cognitive and holistic interview methods and maximising witness retrieval
- ❖ Witness-operator mock crime scenarios
- ❖ National guidelines, achieving best evidence and generating exhibits
- ❖ Procedural and legal responsibilities
- ❖ Effective distribution and use of still and animated Facial Composites for internal and public appeal

The training course will be conducted in accordance with the current guidelines from the ACPO facial ID group and National Occupational Standards.

Registration: Registration on the course can be made by emailing your request to efit@visionmetric.com. Confirmation of registration will be given.

Cost: £1199.00 per delegate

The cost is comprehensive and includes –

- ❖ All course materials
- ❖ Hotel accommodation (including continental breakfast) in the city of Canterbury for the nights of Sunday 25th February -Thursday March 1st 2018)
- ❖ Lunch and refreshments at the Canterbury Innovation Centre, University of Kent.
 - Evening meals are NOT included in the cost.
 - Accommodation for extra nights can be arranged on request.

Cancellation: VisionMetric is required to pay non-refundable accommodation costs for the course in advance. Accordingly, full refunds will be made for cancellations made up to 1 month before start. A cancellation fee of 30% to cover accommodation and administrative costs will be charged for cancellations after this date. VisionMetric reserve the right to charge full fees for no-shows.

Contact Us: For enquiries about the course content, contact the training coordinator Dr Chris Solomon (chris.solomon@visionmetric.com) or the VisionMetric office manager Ayiri Okiy (01227 811790 ayiri.okiy@visionmetric.com)

VisionMetric Ltd reserves the right to cancel the course should there be insufficient subscription. In this case, delegates will generally be notified a minimum of 3 weeks in advance and all registration costs will be returned.
